

ION CLEANSE

In today's toxic environment, the pollution in the air, the chemicals in our food, the water we drink, stress and even the clothes we wear each contribute to toxicity, acidity and heavy metal deposits in our bodies. An easy way to help rid the body of such toxins is through the use of a Foot Bath Detox. During the 30 minute session fat and mucous residues found in the water reflect the wastes that have left the body. The ION foot cleanse is a non-invasive, gentle, effective way to cleanse, detoxify and purify the body.

Virginia is a Certified and Registered Reflexologist, member of the R.R.C.O. She is a Reiki Practitioner.

We offer combined treatments. Please contact us for further information and pricing at 416-455-6704.
